

**TRANSMISSION AND DISTRIBUTION SYSTEM SECURITY AND
PLANNING STANDARDS**

- 1 ER-P2/5 Security of Supply, dated October 1978, and NIE amendment sheet, Issue 2, dated 7 August 1992.
- 2 PLM-SP-1 Planning Standards of Security for the Connection of Generating Stations to the System Issue 1, dated September 1975, and NIE amendment sheet Issue 2, dated 7 August 1992.
- 3 PLM-ST-4 CEGB Criteria for System Transient Stability Studies Issue 1, dated September 1975, and NIE amendment sheet Issue 2, dated 7 August 1992.
- 4 PLM-ST-9 Voltage Criteria for the Design of the 400kV and 275kV Supergrid System Issue 1, dated 1 December 1985 and NIE amendment sheet Issue 2, dated 7 August 1992.
- 5 ER-P28 Planning limits for Voltage Fluctuations.
- 6 ER-P16 EHV or HV Supplies to Induction Furnaces.
- 7 ER-P29 Planning limits for Voltage Unbalance.
- 8 ER-G5/3 Limits for Harmonics.
- 9 ER-G12/2 Application of Protective Multiple Earthing to Low Voltage Networks.
- 10 EPM-1 Operational Standards of Security of Supply Issue 2, dated 30 June 1980.
