Tuesday, 05 April 2016

Dear Sirs,

**Re: Alternative Connection Application and Offer Process Proposal - Consultation Paper 04  
March 2016**

As active participants of the onshore wind power generation sector in Northern Ireland and as active founding members of the Northern Ireland Renewables Industry Group trade body (NIRIG), TCI has considered in consultation with NIRIG the conjoined NIE SONI Consultation Paper on an 'Alternative Connection Application and Offer Process' whereby we respond to the same by wholly supporting the expressed views, opinions, concerns and individual responses submitted by NIRIG to each of the 26 questions posed.

Please therefore consider TCI's consultation response to the above consultation paper to be wholly represented by the views, opinions, concerns and individual responses as outlined in NIRIG's consultation response dated 05 April 2016.

Yours faithfully,

**Gary Preston**  
Head of Development (Ireland)  
TCI Renewables Limited
